----- KOICA's history

Our past activities and growth

----- KOICA today

Our current areas of focus

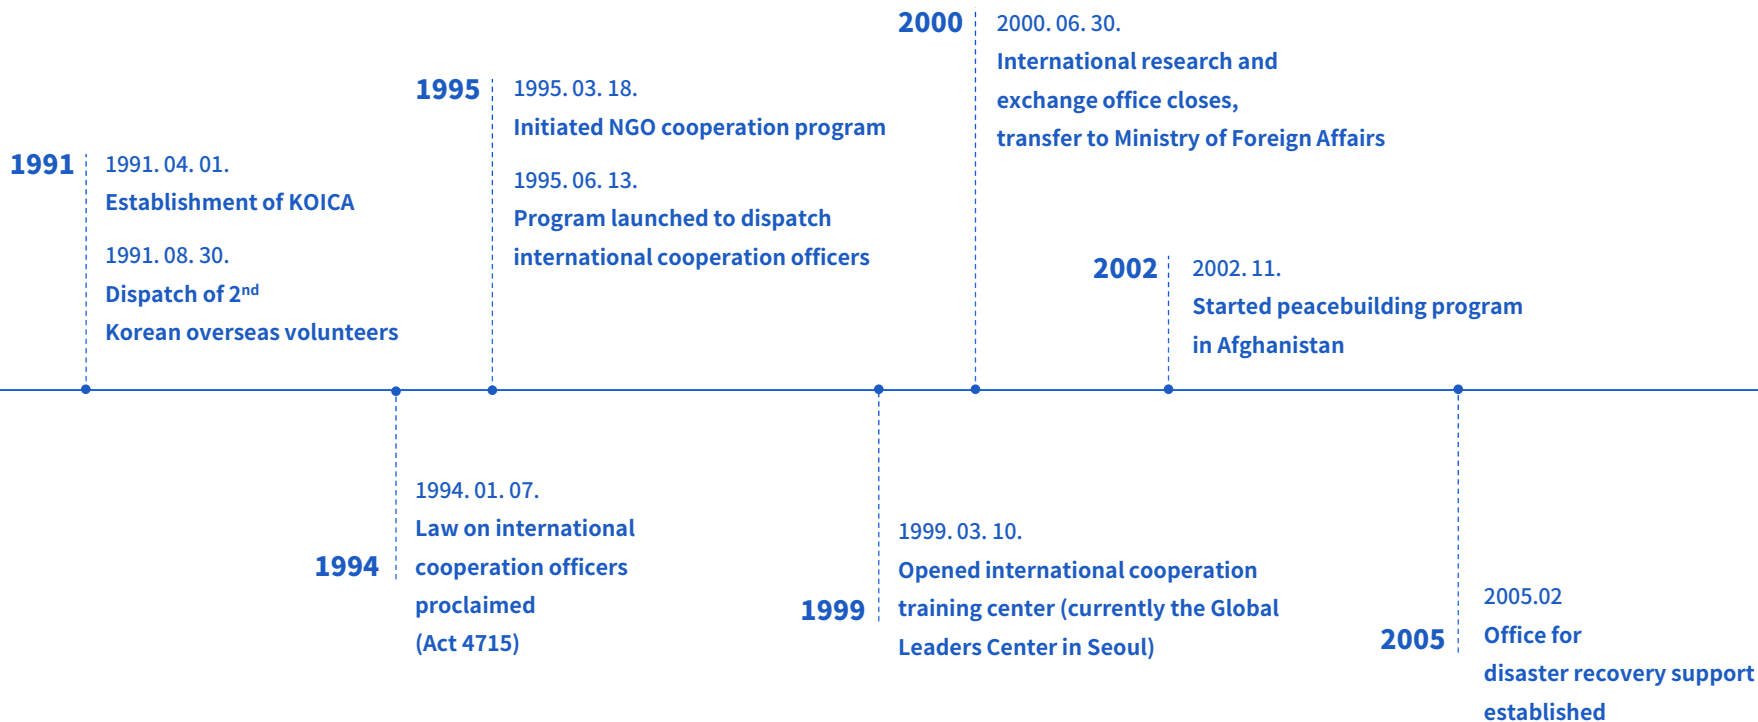

----- KOICA's future

Our vision going forward

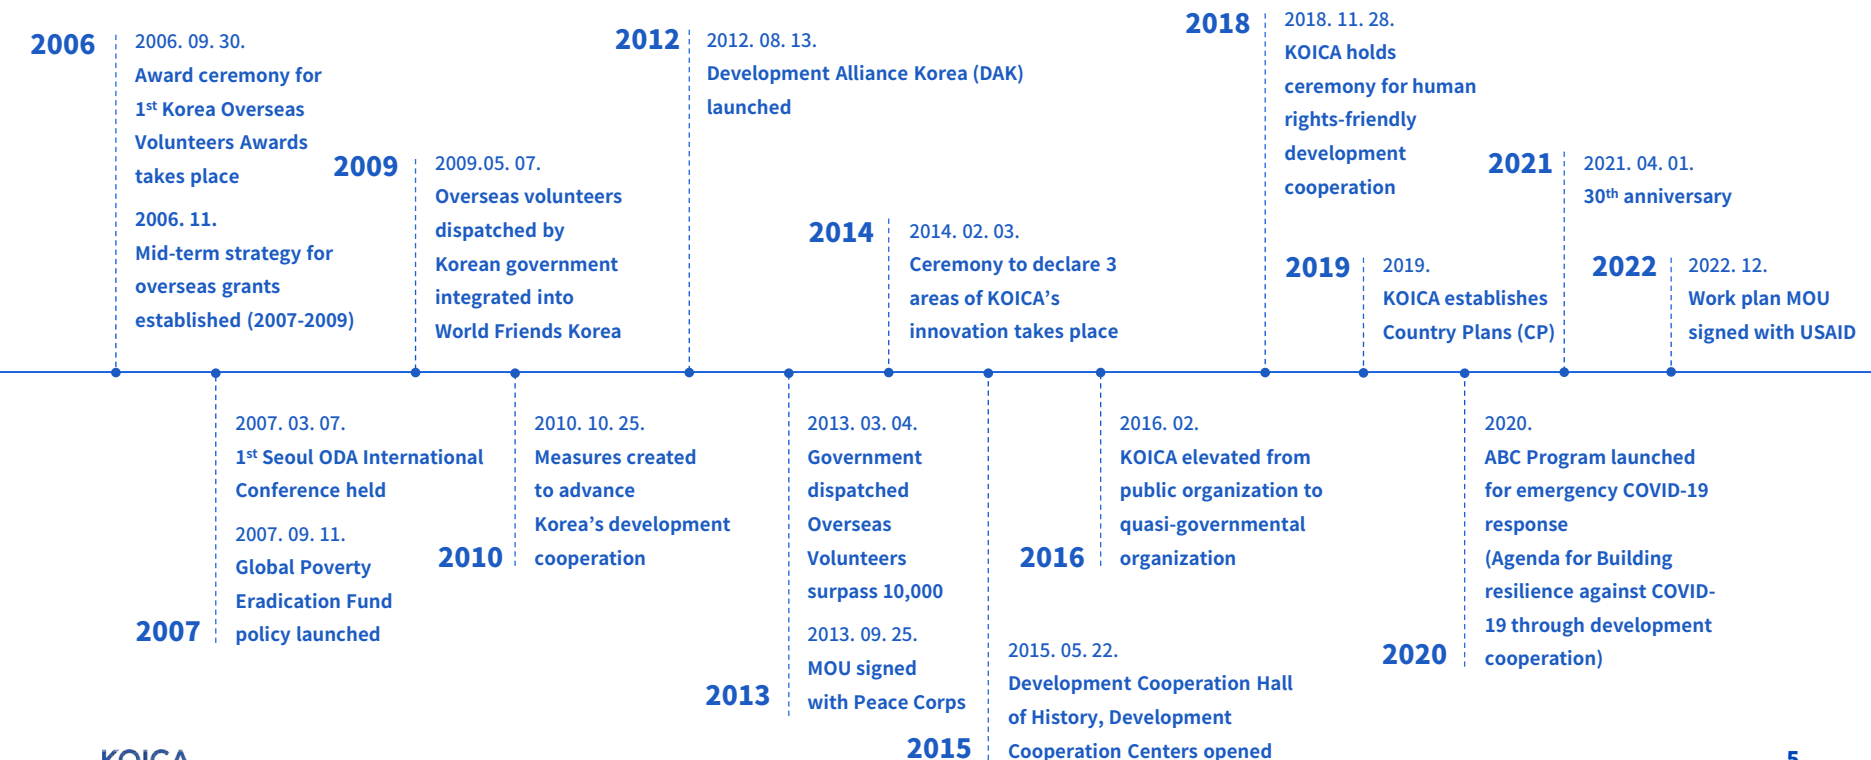

KOICA's history.

During times of hardship,
Korea formed the foundations of its growth and development
through international development cooperation.
KOICA now spreads hope for the future
by sharing Korea's unique development experience with the world.

1991~2005

2006~2022

Since its establishment,

KOICA(Korea International Cooperation Agency)

has grown into

Korea's representative development cooperation organization.

We contribute to

- poverty reduction
- improving quality of life
- promoting the rights of women, children, youths, and persons with disabilities
- gender equality
- sustainable development
- humanitarian assistance
- strengthening economic and friendly ties with partner countries
- and peace and prosperity in the international community.

KOICA today.

As a development cooperation agency,
KOICA is committed to supporting the economic and social development
of partner countries in Asia, Africa, Latin America, and around the world,
and peace and prosperity in the international community.

Organizational structure

- Headquarters, 1 office in Korea
- 46 overseas offices in 46 countries
- 4 representatives in missions/delegations
- 1 branch office

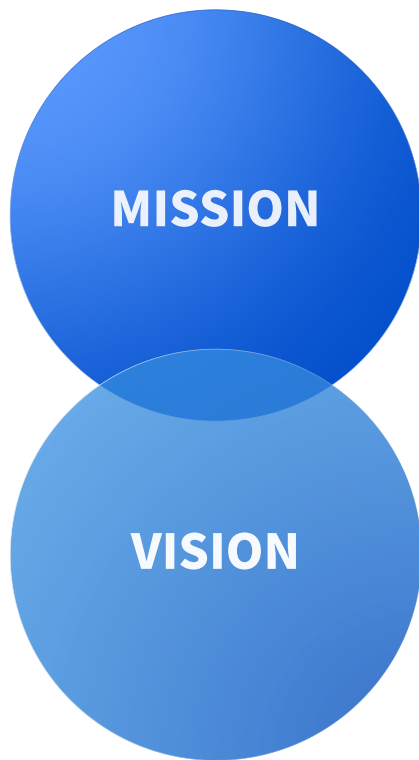

Our staff

443 in Korea
124 overseas

571 in total

Annual Budget

1.0768 trillion won
≒ 760.9 million dollars
(2021)

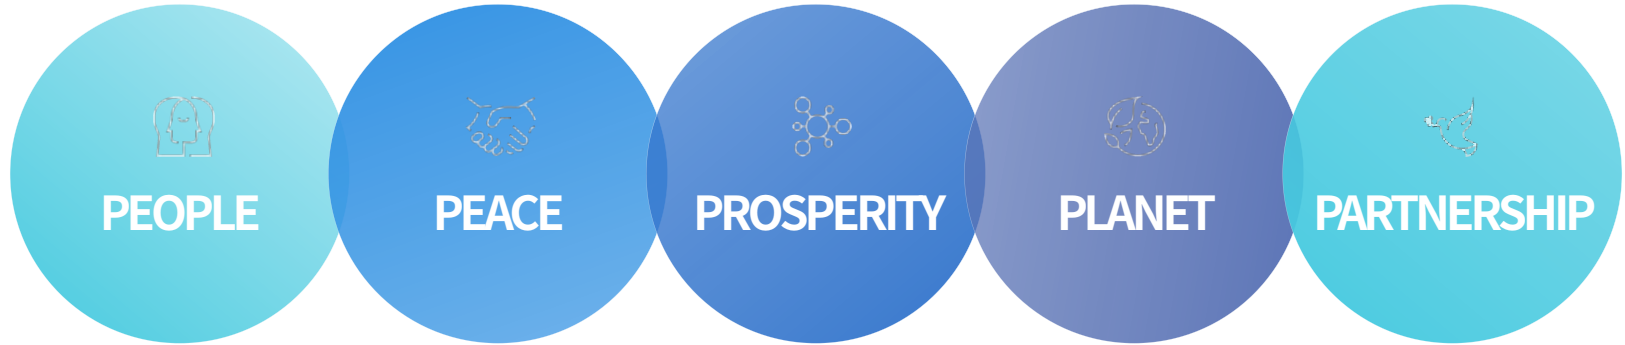

Contributing to the common prosperity of mankind and promotion of world peace through inclusive, mutual development cooperation that **leaves no one behind**

An eminent global development cooperation that realizes global values and creates mutual prosperity

Core values

The values that we pursue through development cooperation

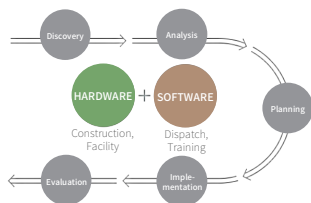

**KOICA implements diverse development cooperation projects
by region, sector, and project type**

Projects by modality

Bilateral projects

A comprehensive development cooperation project that combines human and material resources. Bilateral projects align with **KOICA's support strategies and the partner country's development policies**, to achieve development and diplomatic goals in the partner country.

Bilateral projects typically last 2 to 5 years, and involve a combination of **construction, equipment support, dispatch of experts, invitation training**, etc.

Overseas volunteers / Fostering of development cooperation professionals

Through this program, Korean nationals are able to participate in overseas volunteer activities and international development cooperation work, thereby **contributing to the SDGs and growing as global professionals**.

Volunteers contribute to enhancing the **lives of partner country citizens in close proximity**. In this process, they are able to support SDGs in partner countries, **grow as global professionals and achieve self-actualization**.

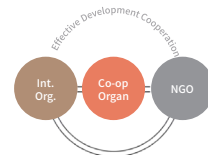

KOICA fellowship program

Through training projects for policymakers, government officials, and sector experts in developing countries, both locally and through invitation to Korea, this program **shares Korea's development experience and techniques with partner countries**.

Drawing on Korea's experience on the importance of human resources in national development, KOICA strives to build training courses based on the **actual needs of partner countries**.

Multilateral projects

Amid growing need for a common response to global issues in the international community, KOICA draws **on the expertise and network of international organizations** to carry out multilateral projects focused on vulnerable countries and conflict regions.

Through multifaceted support, KOICA strives to respond jointly to global crises and contribute to the achievement of the SDGs.

Innovative development cooperation programs

These programs seek out **diverse implementation methods and partnerships with experts** to enhance development effectiveness and strengthen the private sector of partner countries.

There are three types of programs:

- Creative Technology Solution (CTS)
- Inclusive Business Solution (IBS)
- Innovative Partnership Solution (IPS)

Humanitarian assistance & emergency relief

Humanitarian assistance refers to alleviating the suffering of **those struck by crises including natural disasters, conflict, diseases**, etc. and preserve human dignity, in addition to **preventing further crises and strengthening response capacities**.

This includes emergency relief that responds to urgent crises, alleviating disaster risks, enhancing resilience, and supporting chronic disasters, among others.

Cooperation with civil society

KOICA carries out **development cooperation projects together with diverse stakeholders** including civil society groups, academia, social economic groups, forming a comprehensive partnership with civil society.

Through such partnerships, KOICA plans and implements projects effectively through **civil society's human resources, knowledge, technology, capacities, and financing**. Through public contest, KOICA selects and supports projects based on submissions from civil society.

Global Disease Eradication Fund

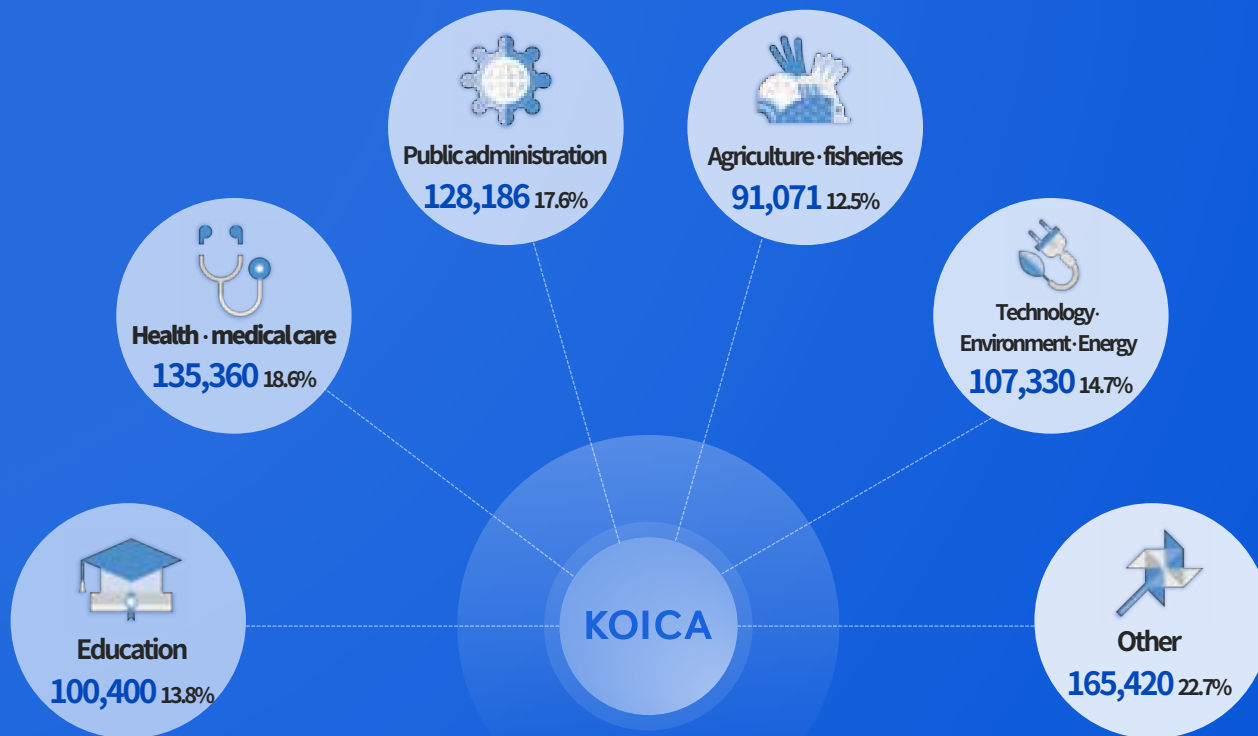

Global Disease Eradication Fund

This fund is raised by through **1,000 won per 1 international flight ticket**. The funds are used for the prevention and eradication of the 3 major diseases (malaria, tuberculosis, and AIDS) in Asia, Africa, and Latin America.

Through **partnership with diverse partners including NGOs, international organizations, and international health initiatives**, the fund contributes to the health security of global citizens.

Projects by sector (2021, Unit: million won)

KOICA Today

Education

KOICA carries out projects in education to support teachers in developing countries in enhancing their capacities

Case

Project to strengthen ICT education capacities of teachers in Rwanda

\$ 7.3 million

2017 - 2023

“
Strengthening
capacities of
Rwanda’s youths”

43,000 trained in education using ICT

- Supported creation of class plan for teachers using computers
- Supported educational capacities using ICT
- Established training center for educational innovation

Continuous training of teachers

- Supported ICT education capacity of education ministry so that the government can carry out training projects in the future

Health and medical care

Health is a basic right and an essential condition for the socioeconomic development of partner countries
KOICA aims to guarantee the universal health of people in partner countries

Case

Project to prevent teenage pregnancy and improve women’s health environment in the Dominican Republic (3rd phase)

\$4 million

2019 - 2023

“
Enhancing
awareness of
youths through
establishment of a
reproductive health
center”

Supported transportation, equipment for reproductive health center’s education wing

- Developed standard educational program, carried out local campaigns, supported peer program, strengthened capacity of teachers and parents

Preventing teenage pregnancy

- Decrease in teenage pregnancy
- Increase in contraceptive usage among teenagers

Governance, peace

KOICA seeks to build a comprehensive cooperative network in partner countries to create peaceful and just societies

Case

Program to build future peace community in the Mekong

 \$92 million

 2020 - 2025

Support for recovery from war damages

- Detected and removing unexploded ordnances
- Developed affected areas
- Supported victims

Capacity strengthening

- Conducted risk prevention education
- Strengthened information management capacity
- Supported implementation and advised on international treaties

Technology, Environment, Energy

KOICA supports the development of economic infrastructure and science & technology essential for the sustainable development of partner countries

Case

Agriculture-friendly solar power plant project in Fiji (GCF)

 \$8 million

 2021 - 2024

Installing agriculture-friendly solar plant in areas severely struck by climate change

Contributed to food security through reductions in greenhouse gases, crop cultivation

- Installed solar power plant
- Build microgrid system and energy saving system (ESS)
- Supported education of maintaining and repair of solar power and microgrid
- Utilized agriculture-friendly system for vulnerable groups
- Strengthened capacity in sustainable crop cultivation

Agriculture & fisheries

KOICA carries out projects in agriculture and fisheries development to increase the income of rural communities and enhance productivity

Case

Project to expand pilot village for sustainable rural development in Uganda

\$5.9 million

2019 - 2023

“Establishing mutually cooperative governance system among local residents, villages, and local governments”

Improved sustainability of rural society and economy

- Supported building of infrastructure such as reservoirs and markets
- Supported project to increase locally-led income
- Offered education in improving living environment and hygiene
- Supported marketing for local produce
- Offered training for farmers and invitational training to Korea

Cross-cutting sectors

KOICA has selected important areas such as environment, gender equality, and human rights as cross-cutting sectors

Case

Project to support vitalization of energy efficiency in Vietnam's industries

\$1.9 million

2017 - 2029

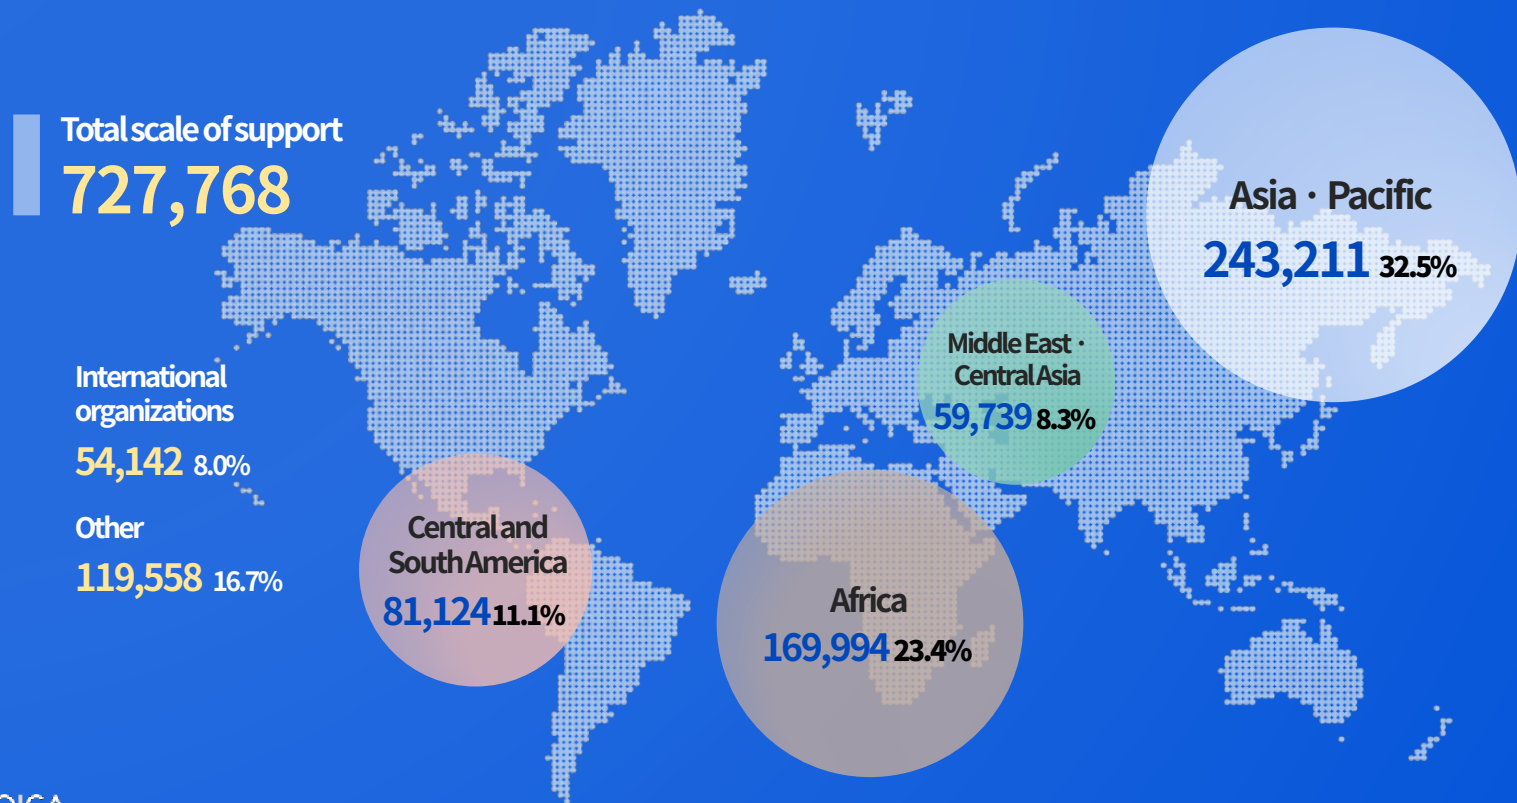

“Strengthening capacity and offering consulting services on energy efficiency improvement in Hanoi's industrial complex”

Improving energy efficiency

- Strengthened diagnostic capacities for energy efficiency
- Identified energy efficient investment projects
- Consulted on procuring finances for energy efficiency
- Supported investment and loans for energy efficiency

KOICA's future.

Toward inclusive and mutually prosperous development cooperation
that contributes to coprosperity for mankind and peace throughout the world

Since its establishment in 1991,
KOICA has been expanding its scale of support
as Korea's representative ODA agency,
implementing diverse forms of development
cooperation in **full consideration of partner**
countries and **through partnerships** with
government, private sector, NGOs, academia, etc..

Mid- to Long-term Management Strategy

**Promoting the
achievement
of the SDGs**

**Leading
development
cooperation
partnerships**

**Vitalizing
development
cooperation
ecosystem**

**ESG-centric
management**

Promoting the achievement of the SDGs

**Aim for 9th place in
contribution to SDGs
achievement among
donor countries**

KOICA **aims to comprehensively support** partner countries' development in line with the government's ODA and diplomacy policies and strategies, **to respond to the global crisis and support the socioeconomic development** of partner countries.

**Responding to
complex crises in
partner countries,
building peace**

**Enhancing health,
education, social
infrastructure in
partner countries**

**Supporting
sustainable
economic
development of
partner countries**

**Expanding
green/digital
foundations in
partner countries**

Leading development cooperation partnerships

Accumulate
1 billion dollars
in finances
for development
cooperation
partnership

Based on SDG17 (Partnerships for the Goals), KOICA carries out **mutual development cooperation** to resolve the pandemic, climate change, energy and food crises, and conflicts to **respond together** against **complex global crises**

Systemic
partnerships with
private sector

Expanding
cooperation with
civil society

Systemic
partnerships with
public sector

Strategic
cooperation with
international
organizations and
donor countries

Vitalizing development cooperation ecosystem

**100,000 cumulative
employees in the
global development
cooperation ecosystem**

KOICA strives to contribute to the **sustainability and advancement** of the global development cooperation ecosystem by creating jobs, fostering global professionals, carrying out knowledge-sharing projects, and raising awareness (education, communication).

Achieve top-tier
performance in
ESG management index
in public sector

KOICA strives for **organizational innovation** to raise efficiency in its development cooperation projects and processes and **create a basis for ESG management** that complies with global standards.

Ethics-based,
accountable and
innovative
management

Fair and effective
organizational
management

Environmental
management

Expansion of
communication
with the people,
mutual
cooperation

Mid- to Long-term Management Strategy

**KOICA will continue in its efforts for
inclusive and mutually prosperous
